

DESCRIPTION

2-1/16" composite corner tape features a pre-finished paper surface and a PUR-laminated nose ensuring perfect corners without paper fuzz-up during finishing and sanding. Loads into any Bazooka® for fast applications of intricate off-angles or inside 90° corners. The memory-free hinge design allows for easy installation and straighter corners. The tape's outer edge features a diamond punch pattern for a superior bond, faster drying, with no rippling or blistering. Ammo-Flex 200 comes in 100', and 200' rolls.

ADVANTAGES

- The best flex-tape that runs through a Bazooka®. Cuts easily.
- Prefinished surface. Just skim coat edges to finish.
- Inside 90° corners where a small fill or straightening is required.
- Inside corners of bay windows.
- Straightens small framing irregularities.
- ASTM C1047 compliant

WARRANTY

Strait-Flex products are backed by a lifetime warranty. When applied to a sound structure, built on a permanent foundation using recommended application techniques, we warrant that these products will not edge-crack for the lifetime of the structure. Not recommended where structural movement may occur. Contact Strait-Flex International Inc for complete details.

DIRECTIONS

- Apply with Bazooka®.

STORAGE

Store in dry place protected from moisture.
